

ASSEMBLY BILL

No. 1103

Introduced by Assembly Member Saldana

February 23, 2007

An act relating to energy.

LEGISLATIVE COUNSEL’S DIGEST

AB 1103, as introduced, Saldana. Energy: commercial buildings: consumption.

Existing law declares that electrical energy is essential to the health, safety, and welfare of the people and the economy of this state, and it is the state’s policy to promote all feasible means of energy conservation.

This bill would declare the intent of the Legislature to enact legislation to establish a California specific benchmarking system, available to all commercial buildings in the state, that would provide energy consumption information to commercial building owners and operators in order to compare their building’s performance to that of similar buildings.

Vote: majority. Appropriation: no. Fiscal committee: no.
State-mandated local program: no.

The people of the State of California do enact as follows:

- 1 SECTION 1. It is the intent of the Legislature to enact
- 2 legislation to establish a California specific benchmarking system,
- 3 available to all commercial buildings in the state, that will provide
- 4 energy consumption information in a form that commercial

- 1 building owners and operators can use to compare their building's
- 2 performance to that of similar buildings.
